

# David Stack, PE, LEED AP

## Principal, Project Management Dallas

### Professional Experience

David has over 30 years of experience leading project teams, minimizing cost and risk while delivering creative real estate solutions. He works with Cresa's advisory team and clients to ensure quality management throughout the entire project life cycle. His expertise includes budget and schedule development, oversight of design, construction, team selection, vendor management, furniture procurement and relocation planning and management. David's balance of project quality, cost and timely performance, has resulted in a track record of successful projects across the country for industrial, office, institutional and mission critical clients.
