

Anna Baker

Business Analyst
Phoenix

Professional Experience

Anna Baker specializes in business data analytics. Her proficiency extends across various domains encompassing data analysis, network optimization, and logistics. This multifaceted skill set enables her to derive valuable insights that form the bedrock of strategic decision-making. In close collaboration with a national portfolio account team and fellow internal Cresa technology experts, she accelerates data-driven growth strategies that lead clients toward impactful real estate decision making.

Leveraging cutting-edge tools, including Cresa's proprietary data analytics tool, BlueChip, Valo, and network optimization solutions, she can empower clients through comprehensive business intelligence. Her support spans the entire transaction lifecycle, from initial needs analysis to contract execution, consistently delivering substantial value to organizations.
