

## Michael Lomax

**Principal, Project Management  
Toronto**

### Professional Experience

Michael brings over 30 years of project management and construction management experience servicing both Canada and the United States. His project management experience includes a large portfolio of diverse occupier facilities projects, including corporate office, government agencies and consulates, retail, restaurant, hospitality, financial services, complex manufacturing, laboratory and administrative facilities.

Michael focuses on building a strong team environment and develops strategic planning to the success of all projects. He has established a record of long-standing achievement in project leadership, project scheduling, budget containment, construction execution and quality control. Prior to joining Cresa, Michael was the principal of two construction companies, senior project manager of another, and the lead of a large developer's design-build division.

His mandate is complete client satisfaction and the continuance of client future relationships.
